

Edison Carrier Solutions (ECS) Escalation Guide

Performance of our network is critical to the success of your business. As a valued customer our goal is to ensure you have the ability to receive timely support and communications.

To report Unplanned Outages or Service Affecting Conditions contact the Telecommunications Command Center (TCC) 1-800-655-8844. Clients must open a trouble ticket for each circuit outage, regardless of duration and ensure TCC has an accurate understanding of the service impact. Please send Request for Outage(s) to ECRSFORRequests@sce.com and allow up to 21 business days from time of request for response.

When opening a trouble ticket provide the following information:

- Circuit ID (s) or System ID (s)
- Location type (Cell Site, Business, School, Data Center, Mobile Switch Center, Public Safety Facility, other)
- Impact to service (Down hard, intermittent trouble, packet loss, etc.)

TCC provides the following support:

- Logs the reported trouble and provides a trouble ticket(s) number for reference
- Troubleshoots and coordinates appropriate organizational engagement for restoral
- Provides repair status and estimated time of repair (ETR)
- Upon restoration, contacts customer to verify restoral
